PROFESSIONAL SUMMARY

5th-semester BS Software Engineering student (CGPA 3.3) at Superior University, Lahore, specialising in full-stack MERN development. Completed two internships building production-grade web features. Ships end-to-end projects independently — from REST API design to real-time systems, payments, and cloud deployment. Actively seeking a junior developer role to contribute from day one.

EXPERIENCE

MERN Stack Intern · IIFA Tech — On-site *Jun 2026 – Present*

- Developing full-stack features using the MERN stack (MongoDB, Express, React, Node.js); building RESTful API endpoints and collaborating with the team on code reviews and feature delivery.

Full-Stack Web Development Intern · Decode Labs — Remote *May 18, 2026 – Jun 18, 2026*

- Built full-stack features using React, Node.js, Express, and MongoDB; designed RESTful API endpoints, resolved bugs across the stack, and participated in structured code reviews.

Web Development & Designing Intern · Oasis Infobyte — Remote *Apr 2026 – May 2026*

- Converted design specs into modular React component architecture; integrated frontend views with backend REST endpoints for live data rendering.

PROJECTS

SkillBridge · *MERN · Socket.io · Stripe · Cloudinary · Redux · JWT*

- Full freelance marketplace with real-time messaging (Socket.io), Stripe payments, Cloudinary media storage, JWT auth, a buyer/seller review system, and a REST API built with Express & MongoDB, deployed on Vercel + Railway.
